

LEED

# Understanding LEED Project Costs & Returns Module

## Are you ready to enter the rapidly growing green building market?

Attend the Understanding LEED® Project Costs & Returns Workshop presented by the U.S. Green Building Council. Gain insight on LEED project cost issues based on current data from LEED-certified projects and available research. Learn tools to calculate and evaluate cost and benefits of LEED certification, and how to get maximum benefit from chosen resources. Learn strategies to build environmentally sound projects at a reasonable cost.

### WHY LEARN ABOUT LEED?

Ask any of the 2000 building owners seeking LEED certification right now. Owners and developers are demanding green buildings that save money while protecting the environment and occupant health. The USGBC's LEED Green Building Rating System™ is the nationally recognized standard for green buildings. LEED is already being used by green building projects in all 50 states and the market continues to grow.

### WHO SHOULD ATTEND?

Industry professionals seeking to increase their understanding of LEED Rating Systems and green building strategies, benefits and resources:

- Architects
- Engineers
- Owners
- Manufacturers
- Developers
- Designers
- Consultants
- Contractors
- Government Officials

### WHAT'S COVERED

- LEED Project case studies and strategies
- Green building costs and benefits
- Available tools and resources

Workshop registration includes educational materials, refreshment breaks, and a discounted price of \$125 on the hardcopy LEED-NC Reference Guide at registration.

### CONTINUING EDUCATION CREDITS AVAILABLE

HOST

SPONSOR

St. Louis Community College
