

Zero in on 2030 Now™

2010 SIPA ANNUAL MEETING & CONFERENCE

April 19 – 22, 2010
Chicago, IL
Hilton/Chicago Indian Lakes Resort

Register online at
www.sips.org

Special one-day seminars Tuesday, April 20, 2010

Design Symposium – for architects and engineers.

Learn how to design and engineer buildings with SIPs to meet the new energy performance requirements coming in 2010-2030.

Builders and Installers Symposium – for builders and installers.

Learn best practices for SIP construction and how building with SIPs can help you meet energy efficiency requirements without raising cost.

Professional Sales Training – for all sales personnel.

Improve your professional sales skills. Learn about the new energy requirements for buildings and how to sell the benefits of energy-efficient buildings. Learn tips on a “consultative” sales approach to better understand your customer’s needs.
