## Preferred locations

SLLc1 | Possible 10 points

Glossary

### Intent

To encourage development within existing cities, suburbs, and towns to reduce adverse environmental and public health effects associated with sprawl. To reduce development pressure beyond the limits of existing development. To conserve natural and financial resources required for construction and maintenance of infrastructure.

### Requirements

Achieve any combination of requirements in the following three options:

#### Option 1. Location type

Locate the project in one of the following locations:

- A previously developed site that is not an adjacent site or infill site (1 point).
- An adjacent site that is also a previously developed site (2 points).
- An infill site that is not a previously developed site (3 points).
- An infill site that is also a previously developed site (5 points).

#### AND/OR

#### Option 2. Connectivity

Locate the project in an area that has existing connectivity within 1/2 mile (800 meters) of the project boundary, as listed to Table 1.

Table 1. Points for connectivity within 1/2 mile (800 meters) of project

Intersections per square mile	Intersections per square kilometer	Points
200-249	78-96	1
250-299	97-115	2
300-349	116-134	3
350-399	135-153	4
400 or more	≥ 154	5

Intersections within the site may be counted if the intersections were not constructed or funded by the developer within the past ten years.

#### AND/OR

#### Option 3. Designated high-priority locations
