## Measurement and verification - base building

EAc5.1 | Possible 1 point

Glossary

### Intent

Provide for the ongoing accountability of building energy consumption over time.

### Requirements

- Develop and implement a Measurement & Verification (M&V) Plan consistent with Option D: Calibrated Simulation (Savings Estimation Method 2), or Option B: Energy Conservation Measure Isolation, as specified in the *International Performance Measurement & Verification Protocol (IPMVP) Volume III: Concepts and Options for Determining Energy Savings in New Construction, April, 2003*. The documentation is to include
  - a description of the infrastructure design,
  - existing meter locations,
  - existing meter specifications,
  - 1-line electrical schematics identifying end-use circuits,
  - guidelines for carrying out tenant sub-metering.
