## Indoor air quality management program

Possible 2 points

Glossary

### Intent

To maintain the well-being of occupants by preventing and correcting indoor air quality problems.

### Requirements

#### Establishment

Develop and implement an indoor air quality (IAQ) management program based on the EPA Indoor Air Quality Building Education and Assessment Model (I-BEAM). Include the IAQ management program in the project's current facilities requirements and operations and maintenance plan. .

#### Performance

Conduct an I-BEAM audit on a regular basis (at least once every five years) and revise the IAQ management program as appropriate.
