## Rapidly renewable materials

MRC6 | Possible 1 point

Glossary

### Intent

Reduce the use and depletion of finite raw materials and long-cycle renewable materials by replacing them with rapidly renewable materials.

### Requirements

Use rapidly renewable construction and Division 12 (Furniture and Furnishings) materials and products, made from plants that are typically harvested within a 10-year or shorter cycle, for 5% of the total value (\$) of all materials and products used in the project.

Furniture is defined as either retail display/shelving that is purchased as a unit from a manufacturer (regardless of where the assembly takes place) or as modular/freestanding furniture.

Please note that casework and built-in millwork items must be included in the base building calculations.
