Here's our weekly collection of green building clips:

[New Vikings stadium unveiled](#), *Star Tribune*. Check out this slideshow of renderings for the striking LEED stadium planned for Minneapolis.

[LEED is changing the built world for the better](#), *The News Journal*. A LEED AP writes in the Wilmington, Del., newspaper on the transformative power of the green building rating system.

[NPR Has Bees on Its Roof, but Isn't in It for the Honey](#), *Washington City Paper*. NPR's new headquarters in Washington, D.C., pursuing LEED, has an interesting addition to its green roof.

[What are the next steps in sustainable design?](#), *The State Journal*. The column notes efforts to green existing buildings and enhance resiliency as major trends taking place in the world of sustainable design.

[Stunning Photos of New LEED Gold Science Building at Potomac's German School](#), Bethesda-Chevy Chase Patch. USGBC Center for Green Schools Director Rachel Gutter was on hand for the LEED plaque unveiling at this incredible facility.

[New MaineGeneral hospital to save big on utility costs](#), *Morning Sentinel*. Utility bills at a new hospital in Augusta, Maine, are expected to be less than half of the current cost, thanks to LEED design.
