E&E Daily reporter Nick Juliano got it right with his article, [Supporters of efficiency measure fear amendment backed by chemicals group could be fatal 'Trojan horse.'](#) E&E adeptly calls out the chemical lobby's attempt to ban LEED from use by the federal government via a proposed amendment to the upcoming Shaheen/Portman energy efficiency bill (S.761). The story makes it clear: the federal government's choice for a green building rating system should not be limited by high dollar interests — the best choice is market-, not lobby-driven. Green building practitioners around the country are taking action to draw attention to this amendment. If you haven't weighed in with your senator on this matter, it's not too late to make a difference!
