Washington, D.C. - (June 12, 2013) - Today, the U.S. Green Building Council (USGBC) announced it will once again join Enterprise Community Partners (Enterprise) and the Institute for Professional and Executive Development (IPED), an affiliate of Nixon Peabody LLP, to co-host the Affordable Housing Summit at Greenbuild.

The summit will take place Nov. 19-20, 2013, in Philadelphia at the [Greenbuild International Conference & Expo](#), the world's largest conference and expo dedicated to green building. USGBC's ongoing partnership with Enterprise and IPED to host the summit helps to ensure there will be strong educational content on affordable housing at the conference.

"We're trying to do our part to transform the face of affordable housing and community development, which has become a significant force in the national sustainability movement," said Jeffrey Lesk, co-chair, Greenbuild Affordable Housing Summit and Nixon Peabody LLP partner. "Our most important goal is to remind people that sustainability isn't complete unless we address both natural *and human* resources."

The two-day summit will open with a keynote presentation featuring Philadelphia Office of Housing and Community Development Director Deborah McColloch and Philadelphia Office of Sustainability Policy and Program Manager Alex Dews. This opening presentation will be followed by various educational sessions focused on securing financing for green affordable housing projects; developing and managing such projects; and implementing policy to enhance community resilience, transform neighborhoods and improve lives.

On the second day of the summit, attendees will be free to take advantage of any education sessions occurring during the opening day of Greenbuild, Nov. 20, with sessions focused on affordable housing suggested for summit attendees. The two-day summit structure will also allow participants to attend the Greenbuild Opening Plenary, featuring former Secretary of State Hillary Rodham Clinton.

"Once again this year the Affordable Housing Summit at Greenbuild will bring together community development leaders from across the country to learn from each other and share emerging strategies to transform affordable housing and create a more sustainable built environment," said Thomas Osdoba, co-chair, Greenbuild Affordable Housing Summit and vice president for green initiatives, Enterprise Community Partners. "Enterprise and our partners are committed to challenging ourselves and the community development sector as a whole to embrace sustainable practices by 2020. This year's conference will be one more step toward realizing our collective vision of delivering healthy, green and affordable housing to low-income communities nationwide."

"Improving the efficiency and health of affordable housing is a key priority in the mission of transforming the built environment," said Bryan Howard, USGBC legislative director and Affordable Housing Summit co-chair. "With more than half of all LEED-certified homes meeting affordable housing designation, there has

been great progress, but much remains to be done. The summit will build on past great efforts to inspire and educate those who are new to green building and early adopters alike.”

This 2013 summit is again made possible through the generous support of the John D. and Catherine T. MacArthur Foundation, which is providing overall program and scholarship funding. More information about the scholarship program can be found on the [Greenbuild website](#).

Greenbuild 2013 will feature three days of networking, educational sessions, green building tours, master speakers and plenary events. Registration for Greenbuild and the Affordable Housing Summit at Greenbuild is currently open. For more information on Greenbuild 2013, visit [greenbuildexpo.org](#).

U.S. Green Building Council (USGBC)

The U.S. Green Building Council is committed to a prosperous and sustainable future through cost-efficient and energy-saving green buildings. USGBC works toward its mission of market transformation through its LEED green building program, robust educational offerings, a nationwide network of chapters and affiliates, the annual [Greenbuild International Conference & Expo](#), the [Center for Green Schools](#) and advocacy in support of public policy that encourages and enables green buildings and communities. For more information, visit [usgbc.org](#) and connect on Twitter, Facebook and LinkedIn.

Greenbuild

USGBC’s Greenbuild International Conference & Expo convenes the industry’s largest gathering of representatives from all sectors of the green building movement. Three days of extensive educational programming, workshops, a vast exhibition floor and ample networking events provide unrivaled opportunities to learn about the latest technological innovations, explore new products, and exchange ideas with other professionals. Greenbuild is the three-time recipient of IMEX Green Meetings Award, and the 2013 show will be held Nov. 20-22 in Philadelphia. For more information, visit [greenbuildexpo.org](#) and follow us on Twitter @Greenbuild and Facebook at [facebook.com/Greenbuild](#).

Institute for Professional and Executive Development (IPED)

The Institute for Professional and Executive Development, Inc. (IPED) is a Washington, DC-based seminar company and affiliate of Nixon Peabody LLP that provides high-quality continuing education for professionals working in a variety of industries. IPED is best known for its conferences on topics such as affordable housing, community development, tax credits, renewable energy, and other aspects of government-assisted development. The instruction-based educational seminars are designed to serve professionals from many industries, including real estate development, accounting, law, government, management, energy, and financial services, including lending and equity investment. For more information about IPED conferences, go to [ipedinc.net](#) or follow us on Twitter @IPEDINC.

Enterprise Community Partners, Inc. (Enterprise)

Enterprise is a leading provider of the development capital and expertise it takes to create decent, affordable homes and rebuild communities. For more than 30 years, Enterprise has introduced neighborhood solutions through public-private partnerships with financial institutions, governments, community organizations and others that share our vision. Enterprise has raised and invested more than \$13.9 billion in equity, grants and loans to help build or preserve 300,000 affordable rental and for-sale homes to create vital communities. Visit [EnterpriseCommunity.org](#) and [EnterpriseCommunity.com](#) to learn more about Enterprise’s efforts to build communities and opportunity, and follow us on Twitter @EnterpriseNow.

John D. and Catherine T. MacArthur Foundation

The MacArthur Foundation supports creative people and effective institutions committed to building a more just, verdant, and peaceful world. In addition to selecting the MacArthur Fellows, the Foundation works to defend human rights, advance global conservation and security, make cities better places, and understand how technology is affecting children and society.
