

## Green power

---

EAc6 | Possible 1 point

### Intent

Encourage the development and use of grid-source, renewable energy technologies on a net zero pollution basis.

### Requirements

Provide at least 35% of the building's electricity from renewable sources by engaging in at least a two-year renewable energy contract. Renewable sources are as defined by the Center for Resource Solutions (CRS) Green-e products certification requirements.

#### **Determine the baseline electricity use**

Use the annual electricity consumption from the results of EA credit 1.

#### **OR**

Use the Department of Energy (DOE) Commercial Buildings Energy Consumption Survey (CBECS) database to determine the estimated electricity use
