

United Technologies Corp. Launches Website Dedicated to Energy-Efficient Buildings

Published on **29 Sep 2011**

Posted in [Center for Green Schools](#)

[United Technologies Corp.](#), founding sponsor of the [Center for Green Schools](#) at the U.S. Green Building Council, just launched an exciting new [microsite](#) that delves into the importance of energy-efficient building systems. Through this initiative, UTC continues to show its dedication to sustainability and innovation in green building.

The website features important news and updates from UTC on their efficiency efforts. Most recently, the Carrier Corp.'s CO2NSERVATION meter reached [100 million metric tons](#) of green gashouse gasses saved, equivalent to removing more than 19 million cars from the road for one year!

The Center for Green Schools is proud of UTC's commitment to sustainability efforts, and looks forward to continued collaboration in the future!
