

LEED ND: Plan | v4 - LEED v4

Infrastructure energy efficiency

Possible 1 point

1 result in All .

Intent

To reduce the environmental harms from energy used for operating public infrastructure.

Requirements

Design, purchase, or work with the municipality to install all new infrastructure (e.g., traffic lights, street lights, water and [wastewater](#) pumps) to achieve a 15% annual energy reduction below an estimated baseline energy use for this infrastructure. When determining the baseline, assume the use of lowest first-cost infrastructure items.
