LEED Fellows represent the green building industry's most accomplished professionals

Washington, DC – (Oct. 18, 2012) – The U.S. Green Building Council (USGBC) today revealed the 2012 class of LEED Fellows. The LEED Fellow Program is the most prestigious designation for LEED Professionals, recognizing exceptional contributions to green building and significant professional achievement within the rapidly growing community of LEED Professionals.

Forty-three of the world's most distinguished green building professionals were selected to be LEED Fellows through a peer nomination and portfolio review process. Among other requirements, LEED Fellows must have at least 10 years of green building experience and hold a LEED AP with specialty credential.

"We are thrilled to present these highly accomplished individuals with the LEED Fellow designation," said Rick Fedrizzi, President, CEO & Founding Chair, USGBC. "The Fellows are leading innovators and forerunners of the green building movement. Their commitment to LEED is advancing the field of green building and transforming the sustainable built environment."
