Here's our weekly collection of green building clips:

[Energy-saving program launched with \\$100 million commitment](#), *Journal Sentinel*. Milwaukee has pledged that buildings in the city totaling 5 million square feet will cut their energy intensity by 20 percent by 2020.

[LEED certification matters for Oregon taxpayers when building green](#), *The Oregonian*. In a pointed rebuttal to a short-sighted op-ed, [Cascadia Green Building Council](#) Executive Director Mona Lemoine explains the value of LEED certification over "just building green."

[The 'Low-Hanging Fruit' of Energy-Efficient Buildings](#), *The Legal Intelligencer*. The commercial building sector is ripe with opportunity for enhancing efficiency, which will also attract significant capital investment, among other benefits.

[UCI graduate student housing project earns 5 LEED Platinum certifications](#), UC Irvine. Even one Platinum certification is impressive, but five? Congratulations to the University of California on a remarkable achievement.

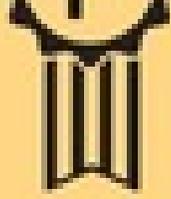

[The Future of Mobility: Greening the Airport](#), *Design Observer*. Making air travel sustainable depends not only on designing more fuel-efficient aircraft and reducing CO2 emissions, but also on building greener airport facilities.

[Why we all should support LEED v4](#), Miron Construction. LEED Fellow [Theresa Lehman](#) applauds the USGBC community for passing LEED v4, which is poised to raise the bar for the entire green building community.

[Certification plan will help restore state's forests](#), *The Press of Atlantic City*. Corey Brinkema, president of the Forest Stewardship Council, writes on the many benefits that the Healthy Forests Act will have for New Jersey.
