

Requirements

The ISO 50001 pilot ACP may be used in place of the following [LEED for Existing Buildings: Operations and Maintenance v2009 Energy and Atmosphere](#) credits:

- EA Prerequisite 1: Energy Efficiency Best Management Practices—Planning, Documentation, and Opportunity Assessment
- EA Credit 2.1 Existing Building Commissioning—Investigation and Analysis
- EA Credit 2.2 Existing Building Commissioning—Implementation
- EA Credit 2.3 Existing Building Commissioning—Ongoing Commissioning

Additionally, ISO 50001 certification may cover some, but not all, requirements of the following credits:

- EA Prerequisite 2: Minimum Energy Efficiency Performance
- EA Credit 1: Optimize Energy Efficiency Performance
- EA Credit 3.2 Performance Measurement—System Level Metering

Follow the alternative compliance path guidance outlined in LEED 2009 EBOM Reference Guide Supplement with ISO 50001 ACPs.

[LEED 2009 EBOM Supplement with ISO 50001 ACPs](#)
