

LEED v4 Interior Design and Construction

Summary of changes – 4th public comment to 5th public comment

Credit	Integrative Process	• No changes
LOCATION AND TRANSPORTATION		
Credit	LEED for Neighborhood Development Location	• No changes
Credit	Surrounding Density and Diverse Uses	• Removed requirement to locate on a previously developed site.
Credit	Quality Transit	• No changes
Credit	Bicycle Facilities	• No changes
Credit	Reduced Parking Footprint	• No changes
WATER EFFICIENCY		
Prerequisite	Indoor Water Use Reduction	• Removed blowdown meter requirement.
Credit	Indoor Water Use Reduction	• No changes
ENERGY AND ATMOSPHERE		
Prerequisite	Fundamental Commissioning and Verification	• Clarified language for who can be the commissioning authority.
Prerequisite	Minimum Energy Performance	• Prescriptive option has been revised to increase the scope of projects able to pursue it.
Prerequisite	Fundamental Refrigerant Management	• No changes
Credit	Enhanced Commissioning	• No changes
Credit	Optimize Energy Performance	• No changes
Credit	Advanced Energy Metering	• No changes
Credit	Renewable Energy Production	• No changes
Credit	Enhanced Refrigerant Management	• No changes
Credit	Green Power and Carbon Offsets	• No changes
MATERIALS AND RESOURCES		
Prerequisite	Storage and Collection of Recyclables	• No changes
Prerequisite	Construction and Demolition Waste Management Planning	• No changes
Credit	Long Term Commitment	• No changes
Credit	Interiors Life Cycle Impact Reduction	• No changes
Credit	Building Product Disclosure and Optimization—Environmental Product Declarations	• Revised to align with MR credit category concept. • Restructured into disclosure and optimization sections.
Credit	Building Product Disclosure and Optimization—Raw Materials Extraction	• Revised to align with MR credit category concept. • Restructured into disclosure and optimization sections.
Credit	Building Product Disclosure and Optimization—Material Ingredient Reporting	• Revised to align with MR credit category concept. • Restructured into disclosure and optimization sections.
Credit	Construction and Demolition Waste Management	• Option revised to allow all projects to use the waste-to-energy option meeting EU standards.
INDOOR ENVIRONMENTAL QUALITY		
Prerequisite	Minimum Indoor Air Quality	• No changes

	Performance	
Prerequisite	Environmental Tobacco Smoke Control	• No changes
Credit	Enhanced Indoor Air Quality Strategies	• No changes
Credit	Low-Emitting Interiors	• No changes
Credit	Construction Indoor Air Quality Management Plan	• No changes
Credit	Indoor Air Quality Assessment	• No changes
Credit	Thermal Comfort	• No changes
Credit	Interior Lighting	• Revised strategies under lighting quality requirements.
Credit	Daylight	• Clarified spatial daylight autonomy option and illuminance calculation option.
Credit	Quality Views	• No changes
Credit	Acoustic Performance	• No changes
